Subject: Vinyl Institute Information Request

The Vinyl Institute is assembling a table of VCM and EDC emissions reported on the SARA Form R's for this past year. The VI will then distribute the information to member companies so we can compare ourselves to others in the industry. Please provide your 1989 emissions as reported on the Form R below by 10/24. I'll send them on to the VI. The VCM Plant needs to provide emissions for both VCM and EDC. Aberdeen and DCC provide VCM numbers only.

	Lbs. VCM	Lbs. EDC
Fugitive	3016	—
Stack	73,186	—
To land	0	—
To water	6	—
To POTW	0	—
Off-site	0	—

Plant: Aberdeen, MS
