Members of 4 Unions;
Retroactive Pay

WASHINGTON—(AP)—Rail industry and union negotiators reached a wage settlement today for 48,000 shopcraft workers and Secretary of Labor George F. Shultz said "we will not be having any strike on the railroads."

The settlement was reached after 20 hours of nonstop bargaining.

Although it must be ratified by the members of four unions, chief union negotiator William W. Winiford said the settlement was reached.

Details of the agreement were withheld pending union ratification. It covers the fact that the settlement will cover 1870 as well as retroactive 1958 pay hikes.

Assistant Secretary of Labor W. J. Flanagan said at the beginning of the current bargaining session that the settlement was a significant step toward ending the threat of a strike. He said the settlement was reached after 20 hours of nonstop bargaining.

That would probably force them to ask Congress for a special law, and any subsequent, a politically dangerous move among labor union members.

Nixon Has Indicated a

WASHINGTON—(AP)—Sen. Albert Gore predicts his Senate adopted proposal to raise the personal income tax exemption from \$600 to \$800 will survive the Senate-House conference and be in the final law reform bill.

But other congressional sources said it is more likely the two chambers will compromise on a \$700 exemption.

There are two major obstacles to the bill. One is the Senate's opposition to the bill. The other is the House's opposition to the bill.

The Senate's opposition to the bill is based on the fact that the bill would raise the exemption from \$600 to \$800. The House's opposition to the bill is based on the fact that the bill would raise the exemption from \$600 to \$800.

'NOT A WEAK MAN'

Nixon Calls Judge a Vic-
tim of 'Brutally Vi-
cious' Attacks

WASHINGTON—(AP)—President Nixon announced today that Judge Clement F. Haynsworth, Jr., will continue to serve as chief judge of the Fourth U.S. Circuit Court of Appeals.

With Haynsworth standing at his side, Nixon went before a group of reporters at the White House to describe his rejected nominee for the Supreme Court as a victim of "brutally vicious" attacks.

In the face of these, the President said, the judge might well have considered stepping down from the circuit bench.

"A weak man would," said Nixon, "have stepped down. The judge is not a weak man."

Nixon said he was delighted by Haynsworth's decision and that he was proud of his nominee.
