

Memorandum

Date: April 3, 1987
Subject: Experimental Order #15660
From: D. L. Swadley
To: A. D. Indelicato

Experimental Order Number 15660 is for 693-551C blocks in FMSI 4515ED configuration. This order was to go to NHTSA for their evaluation per Bob Nelson.

On February 19 you gave instruction to hold this order until Mr. Nelson and yourself had time to talk.

Has the issue been resolved? Should I ship, or cancel the order?

D. L. Swadley
