Robert A. Kehoe, M. D.
Director, Kettering Laboratory
University of Cincinnati
Eden Avenue
Cincinnati 19, Ohio

Dear Bob:

Quite belatedly, as a result of a broadcast on lead poisoning on February 6th last by Dr. Samuel P. Bessman, formerly of the Children's Hospital, Washington, and now of the University of Maryland School of Medicine, Baltimore, I have become aware of a paper by him and E.C. Layne, Jr. with the title "A Rapid Procedure For the Determination of Lead in Blood or Urine in the Presence of Organic Chelating Agents" which appeared in the Journal of Laboratory and Clinical Medicine, January, 1955.

I wonder if you have seen this paper. If not, you can doubtless secure a reprint from Dr. Bessman, or I could lend you the one which he has sent me. Needless to say, I would greatly value your estimate of the method which he has evolved and I hope you will be good enough to let me have it.

Sincerely yours,

MB:GW
