FROM (NAME & LOCATION)

St. Louis

DATE

January 26, 1967 (11:30 AM)

SUBJECT

AROCLOR 1232

REFERENCE

TO

Dr. Kelly

Mr. Foltin called again to let you know that the case of the 1 year old child swallowing Aroclor 1232 was not as bad as they had thought. It seems the child only had a couple of drops on its hands and possibly transferred a little to its mouth.
