YOUR RE-ROOFING PROSPECTS WITH THIS POWERFUL PROFIT POTION...

THE NEW U.S.G.

WEATHER-SHIELD WARRANTY

Abracadabra! You now can offer your customers a new asphalt shingle roof that's not only beautiful and economical, but also one your customers can be sure is dependable. Because these new U.S.G. shingles are heavier, they ward off the witchcraft of wind, wear and weather. Because they're extra-sturdy, they are warranted against defect for up to 15 years. And because they're warranted, your customers are confident that you are offering a better roof for the money.

Presto! Here's how the **U.S.G.**
Weather-Shield Warranty
works for you...

The total applied cost of your customer's roof is covered by the Weather Shield Warranty. After completion of each job, your customer receives a certificate direct from United States Gypsum, to warrant that in the event of failure due to defective material, United States Gypsum will pay the cost of repair or replacement, both labor and material, adjusted to reflect the unexpired portion of the Warranty.

THEN... TO MAKE THE SPELL MORE BINDING
