Dr. R. A. Kehoe
Kettering Laboratory
College of Medicine
Eden Avenue
Cincinnati 19, Ohio

Dear Dr. Kehoe:

Thanks very much for the trouble you took in writing me concerning the papers on lead poisoning. I have had a copy of the American Public Health Association's green booklet and shall follow your advice in seeing that it is in the hands of all our medical men. If it is not too much trouble - I would like to have you send me 25 copies of the report. Also - 25 copies of the reprints issued by your laboratory on this subject - especially the orange booklet entitled 'Safe Occupational Lead Exposure', which I found particularly interesting. Please send a statement.

A claim has been entered on the case about which I recently conferred with you - although no hearing date has yet been set.

Yours sincerely,

A. F. Lecklider, M. D.
Medical Director
