

August 18, 1941

Lieut. Colonel C. J. Gentzkow
Army Medical School
Washington, D. C.

Dear Colonel Gentzkow:

For your information I am enclosing a copy of a letter I wrote in reply to an inquiry of Captain George H. Taylor, Corps of Engineers, War Department, Washington, D. C.

Captain Taylor wrote us to ask whether or not tanks, or tank trucks that have been used for the storage of loaded gasoline could be cleaned and made fit for subsequent use for drinking water.

I trust that no further questions have arisen anent the Army stove and that we will have the pleasure of seeing you sometime.

Cordially yours,

WM:vr

Willard Machle, M. D.
