MOCAN

FROM (LOCATION) New York

CC: To LOC group members:
T. R. Darley

DATE September 13, 1966

SUBJECT Canadian Tariff
Reference 120

REFERENCE

TO R. Bilger - St. Louis

Dear Bob:

As promised during our discussion, I am enclosing Harold Toombs' condensation of the first volume of the Canadian Tariff Board's Report on Tariff Reference 120. I think you will find this of interest particularly if you become directly concerned with MOCAN'S problems. Also enclosed you will find a copy of Chemical Industry Committee's statement on the report.

You may experience some difficulty in interpreting the contractions and symbols -- if so, give me a call and I'll be pleased to interpret.

If your involvement does increase, I would strongly recommend that you get a copy of the full report as the Board does (in my opinion) a very excellent job in a very few words of describing the task it was given, the problems and its suggested solution. You can get a copy by sending $2.50 to:

The Queen's Printer
Ottawa, Ontario

and ask for the Tariff Board's report on Reference 120.

I think you would find this report most useful for your file, as it contains all of the important chemical and plastic imports into Canada in 1964 by pounds and dollars.

Regards,

Harry
