Date November 4, 1981
Subject ICWU HYGIENIST RIGHT TO INSPECT PLANTS

I asked Michele Malloy to review the court record for the case referenced in the attached letter. As we have previously discussed, the court decision was that union hygienist have the right to inspect plants under the NLRB.

This decision obviously will have an impact when we meet with ICWU to discuss the NCI study and current plant conditions. We should be prepared to respond to such a request by the Union.

A handwritten signature in black ink, appearing to read "Tom Grumbles", with a long horizontal stroke extending to the right.
