

1927  
INDEX

Volume I.

- A B C Session, Minutes, 289-331.  
 Accident Statistics: "Accident situation in the chemical industry", (Whittemore), 567-569.  
 Automotive Section, 453-454.  
 Construction industry, 650.  
 Electric railways. In "Interesting the man on the job in safety", (Allison), 110-111.  
 In "Where the accidents happen", (Dean), 428.  
 "Major emphasis in accident prevention", (MacKinnon), 860-863.  
 Ohio statistics, 659-660.  
 Report of Committee on Uniform Accident Statistics, 757.  
 "Statistical review of the accident experiences of electric railways", (Whittemore), 750-753.  
 "Statistics—an aid to accident prevention", (Prouty), 934-937.  
 Accidents: "Where the accidents happen", (Dean), 424-427.  
 Accidents—Costs: Discussion, 931.  
 In "Why safety in construction work?" (McLean), 657-659.  
 "Incidental cost of accidents to the employer", (Heinrich), 291-293.  
 Adams, H. H.: "Design and maintenance of equipment as a factor in safety", 718-721.  
 Adams, W. W.: "Safety in the quarry industry", 558-564.  
 Advertising: "Advertising what the reader will buy", (Pulcipher), 887-889.  
 Agnew, P. G.: "Safety codes as company tools", 384-386.  
 Allison, H. O.: "Interesting the man on the job in safety", 107-111.  
 American Society of Safety Engineers: (See Engineering Section)  
 Annealing Chains: Progress report A. S. S. E.—Engineering Section Research Committee on the effects of annealing on chains, (Thalner), 400-407.  
 Annual Banquet: (See Banquet)  
 Annual Meeting of Members: (See Business Section)  
 Arkills, M. E.: "How to secure the confidence of the operating heads", 311-312.  
 Arm Injuries: "Hand and arm injuries", (Starling), 443-447.  
 Arms, E.: "Plant housekeeping and its relation to fire hazards", 224-227.  
 Armstrong, P. W.: "Care of injured in small plant", 111-114.  
 Associated General Contractors: "Accident prevention activities", (Richards), 673-680.  
 Automotive Section: Joint meeting with Power Press Section, 477-499.  
 Minutes, 421-475.  
 Nominating committee report, 449-450.  
 Officers, 421.  
 Report of officers, (Dunnebacke), 422.  
 Report of Statistics Committee, (Cotcher), 423.  
 Aviation: Resolution, 36-37.  
 "Safety the first essential for progress in air transport", (Guggenheim), 48-52.  
 Back Sprains: Discussion, 118-119.  
 Backhaus, A. A.: "Dangers from static electricity in the handling of solvents", 581-587.  
 Banquet: Minutes, 75-96.  
 Beck, E. B.: Report of Chairman, Engineering Section, 383.  
 Bennett, H. K.: "Radio talk to the children", 766-770.  
 "Utilizing the radio", 761-766.  
 Blank, E. F.: "Inter-plant no-accident competitions", 158-162.  
 Body Injuries: "Head and body injuries in industry", (Mullen), 462-487.  
 Bonus Systems: "Application of a cash accident prevention bonus", (Loney), 483-491.  
 Discussion, 492-493; 497-498.  
 Discussion on bonus system for benefit associations, 831-832.  
 Boswell, F. W.: "Employees' publication in accident prevention", 436-442.  
 Brain Injuries. (See Head Injuries.)  
 Brakes: Discussion on electric railway brake inspection, 723-724.  
 Brakes—Electric Railways: Discussion, 760.  
 Brammeier, H. J.: "Safety Sam and The Careful Twins—Handy Andy and Ready Eddy", 86-90.  
 Brigades, (See Fire Prevention).  
 Brown, L. M.: "Courtesy and its relation to accident prevention", 714-716.  
 Bulletin Boards: In "Interplant No-Accident competitions", (Blank), 160.  
 Burns: Bibliography on chemical burns, 610.  
 Discussion, 467-468.  
 Discussion on chemical burns, 612-617.  
 "First aid treatment of chemical burns of the eye", (Cosgrove), 606-610.  
 "Initial treatment of chemical burns of the eye", (Hubbard), 611-612.  
 Business Section: Minutes, 7-45.  
 Cade, R. E.: "Employees' publication safety value to food workers, 920-922.  
 Cameron, W. H.: Annual report of Managing Director, 38-43.  
 Campaigns—Industrial: Discussion, 152-153.  
 In "How to organize for safety", (Eldred), 146.  
 Portland Cement Association contest, (Curtis), 503-507.  
 Inter-plant No-Accident competition, (Blank), 158-162.  
 Campaigns—Public: "Safety campaigns and stunts", (Penland), 683-687.  
 Campbell, J. C.: "Prevention of eye injuries", 427-423.  
 Cattell, Dr. E. J.: "Bigger men, broader views and better business", 65-71.  
 Cement Industry: "Fixing accident responsibility", (White), 531-537.  
 "How can a mill with a perfect record keep it up?" (Weiteknecht), 538-542.  
 "How to interest men in their own safety", (Sabin), 510-517.  
 Report of Secretary, (Curtis), 503-507.  
 Cement Section: Joint luncheon with Quarry and Mining Sections, 557-564.

- Joint session with Quarry Section, 529-555.  
 Membership, 529.  
 Minutes, 501-528.  
 Nominating Committee report, 531.  
 Officers, 501.  
 Report of Secretary, (Curtis), 503-507.  
 Chains: Discussion on tests, 409-411.  
 Machine for subjecting chains to repeated loading, 404.  
 Progress report, A. S. S. E.—Engineering Section Research Committee on the effects of annealing on chains, (Thalner), 400-407.  
 (See also Annealing Chains).  
 Challis, L. M.: "Safety committees—a necessity or a nuisance", 104-106.  
 Chemical Industry: "Accident situation in the chemical industry", (Whittemore), 567-569.  
 "Chemical plant from the standpoint of the foreman", (Streeter), 623-625.  
 "Chemical plant safety from the standpoint of the insurance carrier", (Jacobs), 626-630.  
 Discussion on where accidents occur, 570.  
 Prevention of accidents in chemical laboratories", (Stillman), 571-577.  
 "Safe preparation of tanks and other chemical apparatus for repairs and inspection", (Rowland), 592-594.  
 (See also Burns; Laboratories).  
 Chemical Section: Membership Committee report, 592.  
 Minutes, 565-643.  
 Nominating Committee report, 591.  
 Officers, 565-566.  
 Children—Safety Work With: In "Safety campaigns and stunts", (Penland), 683-687.  
 Your job and my job", (Prendergast), 80-81.  
 "Radio talks to the children", (Bennett), 766-770.  
 "Safety Sam and the Careful Twins", 87-90.  
 "Utilizing the radio", (Bennett), 761-766.  
 Chlorine: Discussion on leakage in chlorine cylinders, 578.  
 Classification of Causes of Accidents: Discussion, 117.  
 In "How I would seek safety in a manufacturing plant", (Kaems), 181-182.  
 In "Machine hazards in the food industry", (Rice), 947-950.  
 Cleaning Plants. (See Static Electricity).  
 Climer, F. W.: "Successful employees' benefit associations", 782-784.  
 Clubs—Industrial: In "How to organize for safety", (Ellerd), 147.  
 Coal—Dust: Discussion on dust hazards in handling coal, 942-944.  
 Codes: Report of the Steering Committee on Research Standards and Codes, 392-396.  
 "Safety codes as company tools", (Agnew), 384-386.  
 Committees: Discussion on recommendations of committee on form of discipline, 733-734.  
 In "Fixing accident responsibility", (White), 533-534.  
 "Organization and functioning of safety committees", (Koehler), 729-733.  
 "Safety committees—a necessity or a nuisance", (Challis), 104-106.  
 Community, Safety: (See Public Safety).  
 Company Magazines: (See Plant Publications).  
 Competition: In "How to interest men in their own safety", (Sabin), 513.  
 "Inter-plant No-Accident competitions", (Blank), 158-162.  
 "Safety in the Quarry industry", (Adams), 558-564.  
 (See also Bonus Systems).  
 Compulsory Automobile Insurance: (See Insurance—Automobile).  
 Conductivity of Liquids: Table, 583.  
 Conferences: Report of Steering Committee on Regional Safety Conferences, (Hurlbutt), 391-392.  
 Conover, R. G.: "Some editorial problems", 864-869.  
 Construction: "Accident prevention activities of the Associated General Contractors", (Richards), 673-680.  
 "Health and the construction industry", (Wilzbach), 651-653.  
 "Keeping out of the rut in safety work", (Morris), 667-671.  
 Ohio Statistics, 659-660.  
 "Protecting the public", (Langner), 687-691.  
 "Why safety in construction work?" (McLean), 654-659.  
 Construction Section: Address of Welcome, (Sollitt), 646-647.  
 Annual report of the Secretary, (Robinson), 648-650.  
 Construction Section—Continued.  
 Bulletin Committee, (Tubesing), 654.  
 Membership, 650.  
 Minutes, 645-692.  
 Nominating committee report, 666-667.  
 Officers, 645-646.  
 Resolution on field secretary need, 681.  
 Statistics, 650.  
 Contests: Discussion of contest rules, 163-166.  
 Discussion of difference in departmental hazard, 162.  
 Employees' Publication Section prize contest committee report, 876-881; 904.  
 "Inter-plant No-Accident competitions", (Blank), 158-162.  
 Portland Cement Association, (Curtis), 503-507.  
 "Relationship of accident prevention contests as run in works' papers to employees' benefit associations", (Wilkins), 827-830.  
 "Reward for contributors to employees' magazines", (Kupferer), 873-875.  
 Conveyors, (See Screw Conveyors).  
 Cooperation: "Securing the cooperation of the plant management", (Reninger), 149-152.  
 "With representatives of other local companies", (Henry), 128-131.  
 Cosgrove, Dr. K. W.: "First aid treatment of chemical burns of the eye", 606-610.  
 Costs of Accidents, (See Accidents, Costs).  
 Courtesy: "Its relation to accident prevention", (Brown), 714-716.  
 Courts, Safety: In "How to interest men in their own safety", (Sabin), 512.

- Curtis, A. J. R.: Report of Secretary, 503-507.
- Curtis, T.: "Synopsis of the best things which have been brought out in previous Congresses", 698-702.
- Cutting Oils: Discussion, 469-470.
- Cylinders, (See also Chlorine cylinders; gas cylinders.)
- Dalton, A. C.: "Safety on the high seas", 17-27.
- Dean, T. N.: "Where the accidents happen", 424-427.
- Dempster, J.: "Employees' publications, plant papers, or house organs?" 889-892.
- "Relationship of mutual benefit associations to the safety problems, 799-802.
- Dermatists: Discussion on nickel-itch, 468-470.
- Directors of N. S. C.: 4-6.
- Discipline: Discussion, 303-304.
- "How should men responsible for accidents be disciplined", (McClain), 299-302.
- Letter, 313-315.
- Diseases—Occupational: "Some observations of industrial silicosis", (Sayers), 264-279.
- Dry Cleaning, (See Electricity, Static.)
- Dust Explosions: Discussion, 939-940; 944.
- Dusts: Discussion on dangers, 544.
- Dutton, H. P.: "How I would edit an employees' magazine", 848-850.
- Electric Railway Section: Bulletin Committee report, 695.
- Committee on cooperation with claims committee, (Hellmuth), 697.
- Discussion and motion on News Letter, 753.
- Joint luncheon with Public Utilities Section, 773-780.
- Membership Committee report, 696.
- Minutes, 693-771.
- Motion on compulsory automobile insurance, 748.
- Nominating Committee report, 741.
- Officers, 693.
- Publicity committee report, (Nutt), 696-697.
- Report of Committee on Uniform Accident Statistics, 757.
- Resolution, 741.
- "Synopsis of best things which have been brought out in previous Congresses", (Curtis), 698-702.
- Electric Railways: Address, (Storrs), 776-780.
- "Courtesy and its relation to accident prevention, (Brown), 714-716.
- "Design and maintenance of equipment as a factor in safety", (Adams), 718-721.
- Discussion on brake inspection, 723-724.
- Discussion on brakes, 760.
- Discussion on colors of cars, 755-756.
- Discussion on folding steps, 722.
- Discussion on installation of warning lights, 702-703.
- Discussion on one man cars, 758-760.
- Discussion on safety zones, 743.
- Discussion on side-swiping, 747.
- Discussion on use of sand, 722; 728.
- "Organization and functioning of safety committees", (Koehler), 729-733.
- "Power of safety in the electric railway field", (Spring), 734-737.
- Protection of trackmen, 760.
- "Selection and training of new men and their relation to safety", (Smith), 704-707.
- "Specific ways to prevent collisions with other vehicles in urban centers and at grade crossings", (Kuhn), 742-744.
- "Statistical review of the accident experiences of electric railways", (Whittemore), 750-753.
- "Synopsis of the best things which have been brought out in previous Congresses", (Curtis), 698-702.
- (See also Gongs).
- Electricity—Static: Bibliography, 586-587.
- "Dangers from static electricity in the handling of solvents", (Backhaus), 581-587.
- Discussion, 370-377; 587-588.
- Discussion of friction caused by automobile tires, 392-393.
- Discussion of grounding chain, 372.
- Discussion on gasoline tank cars, 373.
- Handling sulphur, 588.
- "Progress report of A. S. S. E.—Engineering Section Research Committee on Static electricity", (Singleton), 363-370.
- Ellerd, H. G.: "How to organize for safety", 143-148.
- Employees' Benefit Associations: Discussions, 824-827.
- Discussion on investment of funds, 788-789.
- Discussion on pay for men and women, 785-786.
- Joint luncheon with Employees' Publication Section, 907-912.
- Minutes, 781-835.
- Officers, 781.
- "Relationship of accident prevention contests as run in works' papers to employees' benefit associations", (Wilkins), 827-830.
- "Relationship of mutual benefit associations to the safety problems", (Dempster), 799-802.
- "Relief plant of Bethlehem Steel Corporation and subsidiary companies", (Vary), 817-823.
- "Successful benefit associations", (Climmer), 782-784.
- Employees, Old. (See Veteran Employees.)
- Employees' Publication Section: Discussion on change of name, 842-844; 847.
- Discussion on News Letter, 871.
- Discussion on possible revenue, 844-845; 873.
- Joint luncheon with Benefit Association, 907-912.
- Minutes, 837-905.
- Miscellaneous Motions, 886.
- Nominating Committee report, 842.
- Officers, 837.
- Prize contest committee report, 876-881.
- Program Committee report, 838-839.
- Resolution on holding congress in Chicago, 863-864.
- Service Committee appointment, 885.
- (See also Plant Publications.)
- Employees' Publications, (See also Plant Publications.)
- Employees' Representation: In "How to organize for safety", (Ellerd), 146.

- Employment:** Discussion on position for man with one eye, 955.  
 "How good physical examinations and follow-up work in employment departments can reduce tuberculosis and decrease accidents", (Kierman), 805-809.
- Engineering Section:** Constitution and by-law changes, 390-391.  
 Membership Committee, 396-397.  
 Minutes, 361-419.  
 Nominating Committee report, 390.  
 Officers, 361-363.  
 Progress report of A. S. S. E.—Engineering Section Research Committee on elimination of harmful noise, (Snook), 412-415.  
 Report of A. S. S. E.—Engineering Section Research Committee on static electricity, (Singleton), 363-370.  
 Report, A. S. S. E.—Engineering Section Research Committee on the effects of annealing on chains, (Thalner), 400-407.  
 Report of A. S. S. E.—Engineering Section Research Committee on Wire rope attachments and connections, (Sunderland), 377-379.  
 Report of Chairman, (Beck), 383.  
 Report of Committee on chapter organization and activities, 397-398.  
 Report of Committee on electrical hazards, (Auel), 398.  
 Report of Steering Committee on Regional Safety Conferences, (Hurlbutt), 391-392.  
 Report of the Steering Committee on Research Standards and codes, 393, 396.  
 Summaries of reports, 387-390.
- Engineers—Safety:** "Safety engineer as a community factor", (Pollock), 121-128.
- Enthusiasm:** "Putting enthusiasm into safety", (Rose), 52-57.
- Executive Committee—N. S. C.:** 3-4; 75-77.
- Executives:** (See Health Supervision of Employees; Physical examination of Executives).
- Eye Protection:** Discussion on eye inspection campaigns, 682-683.  
 "First aid treatment of chemical burns of the eye", (Cosgrove), 606-610.  
 "Initial treatment of chemical burns of the eye", (Hubbard), 611-612.  
 "Prevention of eye injuries", (Campbell), 427-433.
- Foot Injuries:** "What price feet and legs?", (Hewitt), 451-454.
- Fire Extinguishers:** Systematic Charging, 214.
- Fire Prevention:** Discussion of teaching of school children, 215-216.  
 Discussion of volunteer brigades, 222-224.  
 "Fire brigades", (Landuyt), 217-221.  
 "First aid equipment in fighting fires", (Welborn), 211-213.  
 "Plant housekeeping and its relation to fire hazards", (Arms), 224-227.  
 "Studying plant processes to prevent fires", (Richards), 198-206.
- Fire Prevention Session:** Minutes, 197-232.
- Fireworks:** Discussion, 228-229.  
 Resolution, 227-228.
- First Aid:** "Care of injured in small plant", (Armstrong), 111-114.  
 Discussion, 115-116; 329-331.  
 "First aid training and its relation to the prevention of accidents", (Titus), 323-328.  
 "First aid treatment of chemical burns of the eye", (Cosgrove), 606-610.  
 "Some of the things you should know about first aid", (Fisher), 169-175.  
 Fisher, H. E.: "Some of the things you should know about first aid", 169-175.  
 "Fixing accident responsibility", (White), 531-537.
- Floors:** Discussion of slipperiness, 468.
- Foley, E. L.:** "Place of the visiting nurse in industry", 279-284.
- Food Industry:** Disease Carrier, 952.  
 "Employees' publication safety value to food workers", (Cade), 920-922.  
 "Keeping safety alive in the world's largest starch plant", (Hennessy), 924-927.  
 "Machine hazards in the food industry", (Rice), 947-950.  
 "Value of physical examinations in the food industries", (Selmon), 951-952.
- Food Section:** Cooperation with Toxicab and Fleet-Owners Section, 918-919.  
 Minutes, 913-959.  
 Nominating Committee report, 933.  
 Officers, 913.  
 "What the Food Section has accomplished", (Sutton), 914-916.
- Foot Injuries:** (See Feet Injuries.)
- Foremen:** "Application of a cash accident prevention bonus", (Loney), 483-491.  
 "Chemical plant from the standpoint of the foremen", (Streeter), 623-625.  
 Discussion on holding foremen responsible, 930.  
 Discussion, teaching the foremen the need of human interest, 472-473.  
 In "Statistics—an aid to accident prevention", (Prouty), 934-937.  
 "My Way", (Slaymaker), 183-184.  
 "Safety—a part of the foreman's responsibility", (Williams), 494-496.  
 "Training foremen in accident prevention", (Myers), 478-483.
- Foreign Languages:** Discussion, 517-519.
- Forster, H. W.:** "Safety—a source of inspiration and a test of courage", 91-96.
- Fractures:** "Head and body injuries in industry", (Mullen), 462-467.
- Gary, E. H.:** Resolution, 33-34.
- Gas Cylinders:** Keep cylinders from tipping over, 580-581.
- Geler, Dr. O. P.:** "What has the health of the worker to do with industry?" 250-254.
- General Session:** Minutes, 47-74.
- Goggles Discipline:** 434.  
 Discussion on anti-fogging preparations, 433, 435-436.  
 (See also Eye Protection).
- Gongs:** Discussion on electric railway gongs, 726-727.
- Grade Crossings:** "Specific ways to prevent collisions with other vehicles in urban centers and at grade crossings", (Kuhn), 742-744.
- Group Plant Safety Supervisors Session:** 143-168.
- Guards:** Discussion, 443.

- Guggenheim, H. F.: "Safety the first essential for progress in air transport", 48-52.
- Haggard, Dr. W. D.: "What price health", 60-64.
- Hale, I.: Address, 521-528.
- Hand Injuries: "Hand and arm injuries", (Starling), 443-447.
- Hardy, C. D.: "Selecting materials for the speech", 342-350.
- "Some guiding principles for the speaker", 333-341.
- "Speaker on the platform", 351-359.
- Hazard Factor Table: Discussion, 166.
- Hazard Rating Sheet for Foremen: In "Application of a cash accident prevention bonus", (Loney), 487-491.
- Head Injuries: "Head and body injuries in industry", (Mullen), 462-467.
- Health Service Division, Minutes, 233-288.
- Health Supervision of Employees: Discussion of health service on contributory basis, 286.
- "Health and the construction industry", (Wiltzback), 651-653.
- "Health service", (Miller), 789-793.
- "What has the health of the worker to do with industry", (Geier), 250-254.
- "What price health", (Haggard), 60-64.
- Health Supervision of Executives: "Health of Executives", (Sawyer), 255-263.
- Heinrich, H. W.: "Incidental cost of accidents to the employer", 291-298.
- Hennessy, H. M.: "Keeping safety alive in the world's largest starch plant", 924-927.
