(NAME & LOCATION) Vernon Fields - Texas City, TX

DATE February 23, 1984 cc. J. M. Gaviria
SUBJECT Fourth Quarter Safety and R. D. Coleman
Housekeeping Inspection Dept. 48 H. M. Lacy
REFERENCE S. W. Moncla
R. T. Hammann
TO : J. G. Trafton

The following is in response to recommendations made by the Inspection Team on January 24, 1984 for Dept. 48.

Personal Knowledge of Safety

Rich Coleman will make up a list of safety topics and designate who will conduct each monthly meeting.

Personal Safety Equipment

The hearing conservation program has been initiated and signs have been purchased and installed on 2/24/84. All five minute escape masks are in place, and the portable eye wash in the motor control center has been filled to the proper level.

Condition of Safety Equipment

The signs missing on water and nitrogen stations on top deck of hydro have been replaced. A safety chain has been installed on the chain operated valve by 48-604.

Safety Hazards

The broken cable on air hoist east end of hydrogenators has been repaired.

Housekeeping

The scaffold storage area south of Dept. 48 has been cleaned up.
