Dr. G. C. McCandless,
1228 Elk Street,
Franklin, Pennsylvania.

Dear Dr. McCandless:

I have at hand the notations of Dr. Karl V. Kitzmiller, who talked with you some days ago concerning your patient, Mr. Welch.

I enclose herewith a copy of the analytical results obtained on the samples which you forwarded to us. As you will note, both results are well within normal limits, being actually somewhat below the average values found in normal persons with no occupational or otherwise unusual exposure to lead compounds. I take it from Dr. Kitzmiller's notes that this will not surprise you. In my opinion it excludes any possibility that lead absorption was a factor in Mr. Welch's illness.

Very truly yours,

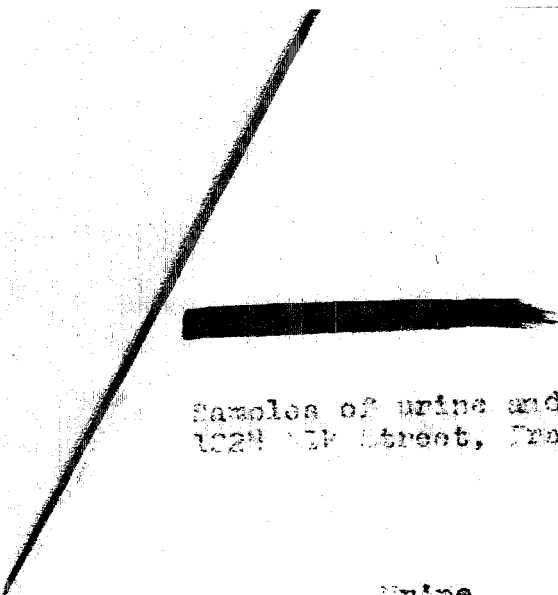

Robert A. Kehoe, M. D.

Samples of urine and blood received from Dr. G. C. McCandless,
1324 14th Street, Franklin, Pennsylvania, for lead analyses.

Urine

Analysis Number = 44A-5806

Volume = 100 ml.

Mg. Pb/Liter = 0.02

Blood

Analysis Number = 44A-5807

Grams = 10.7

Mg. Pb/100 g. = 0.02 (dithizone)

Samples Collected: 10-16-44

Samples Received: 10-21-44

Samples Reported: 10-25-44
