Dear Bob:

Many thanks for your note, substantiating the rumor that I have heard that you had put out a book on lead many years ago. You mentioned the fact that the French, Italian and Spanish editions are available in adequate numbers. Have you any idea where I might be able to obtain copies of these for my own library?

✓ It would be appreciated if you might be able to provide me with the title of the book in all the languages, so that this might be added to the list of source books which I am preparing. Also, if there is a publisher for the various editions, I would value knowing who this is, and what the dates of the translations might be, in addition to the initial English version.

Many thanks for filling me in, and I look forward to seeing you in Chicago.

Most cordially yours,

J. S. Felton, M. D.
Professor of Occupational Health

JSF:mp

P.S.:

The APHA publication on lead exposure came in this morning, and for this, my deepest thanks.
