We are enclosing a list of employees exposed to asbestos or asbestos-containing material.

In addition, we are enclosing a list of materials which give the specifications for the content of various materials used for insulation: Material Specification Series 100 Preformed Block and Pipe Sn 100M Pages 1-13, SN 200M pages 1-3, SN 400 M pages 1-2, SN 500M pages 1-3, SN 700M pages 1-12 and SN 800M pages 1-7. We obtained this information from our Engineering Division, and it is also available in our Purchasing Division. Apparently, these are issued by the Engineering Specification Section.

As soon as we are able to further check our information, we will send the names of employees exposed to Berryllium.
