SUBJECT: Work by Outside Contractor

Nichols Construction Co. will be working on the plant for a period of approximately 45 days starting the week of December 3, 1956. They will dismantle and remove the Lindane manufacturing facilities.

Their force will consist of eight men, one crane and two trucks.

The contractor has been informed of our plant security rules and regulations relative to admittance of their employees, smoking, flame permits, operation of vehicles, etc.

Most of the employees they propose to use on this job have worked on the plant previously.

We understand from the Insurance department that all insurance certificates are in order.
