Dear Folks:

The California Health and Welfare Agency, acting pursuant to Proposition 65, has just issued an announcement that it intends to consider PCBs as a reproductive toxicant at its September 1988 meeting. For your information I am enclosing the announcement of the agenda for the September 1988 SAP meeting and I am also enclosing the simultaneously issued list of chemicals under consideration for the SAP's meetings in December 1988 and the Spring of 1989. Also enclosed is the newly revised list of "Chemicals Known to the State to Cause Cancer or Reproductive Toxicity."

I would propose a meeting on this new matter between our three groups as soon as possible. Doug and I will be in Sacramento Monday and Tuesday, July 11 and 12, but would be available for a meeting on Wednesday afternoon.
