RE: Asbestos/Health

Attached are several items that I feel merit your attention prior to our February 20 meeting.

- F*
Asbestos/Health
1. Remarks by John Waddell, Chairman of the Asbestos Information Committee and Chairman of Turner Brothers Asbestos Company, to a group of 17 members of Parliament in Great Britain. These M.P.'s either have asbestos plants in their constituencies, have asked questions about asbestos or are medical doctors.
 2. The background memo furnished to the above-mentioned Members of Parliament at the January 30 meeting.
 3. Copy of H.R. 14816, the "Occupational Safety and Health Act. of 1968," to which I made reference in forwarding a clipping from the NEW YORK TIMES on February 2, 1968.
 4. Copy of statement by Willard Wirtz, Secretary of Labor, during a meeting of the Select Subcommittee on Labor, that is considering H.R. 14816.
 5. Memo from Hill & Knowlton summarizing the goals of this proposed legislation and commenting upon it.
