**Subject:** thank you

Samantha and Mandy-

Thanks so much for taking time at the end of your Wednesday to meet with REG. I hope we can continue to have an open, information sharing relationship.

I have been involved with the RFS program since September of 2007 when I worked at EPA as a contractor, then as a government employee, on all aspects of the program. At the time my background was registration, recordkeeping and reporting but grew into larger policy issues including the RVO and regulatory changes. Since leaving EPA in 2013, I have continued to be heavily involved with the RFS and the annual standard setting from an industry perspective.

I am back in the DC office next week and would be happy to sit down and share what I know about the program and implementation and answer any questions you have. I'm sure you are getting bombarded with opinions about the program, but I honestly think it is the best way to understand how this program impacts all stakeholders.

Please feel free to reach out if you have any questions and let me know if you would like to sit down over coffee or more formally to answer any questions.

Hope to chat soon.

Sincerely,

Lindsay
