SUBJECT: INSULATION SAMPLES AR 1550

PLAINTIFF'S EXHIBIT

USG-1481

Three insulation samples were received from you and analyzed for the presence of asbestos by polarized light microscopy using dispersion staining. The results are as follows:

<u>Sample No.</u>	<u>Sample Description</u>	<u>Asbestos</u>
1	Insulation From 8" Steam Line	No
2	Pipe Insulation From Defibrator	Yes
3	Insulation From Steaming Tube on Defibrator	Yes
