

GEOLOGICAL SURVEY OF CANADA

DEPARTMENT
OF
MINES AND TECHNICAL SURVEYS

Ottawa, November 25th, 1953.

Mr. C. P. Kipp,
Supervisor, Insurance,
United States Gypsum Company,
300 West Adams Street,
Chicago 6, Illinois.

Dict #1

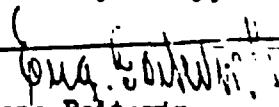

Dear Sir:

Your letter of November 16th addressed to the Department of Mines and Technical Surveys has been transferred to this Division of the Geological Survey of Canada for attention.

In answer to your enquiry re - asbestosis, I wish to advise you that the best publication on this subject has been issued some years ago by the U.S. Treasury, Department, Public Health Service, Washington, D.C. This report is entitled "A STUDY OF ASBESTOSIS IN THE ASBESTOS TEXTILE INDUSTRY", Public Health Bulletin No. 241.

At the end of this bulletin you will find an annotated bibliography listing the titles of some 63 papers referring to asbestosis and which will give you further information on this subject.

Yours very truly,

Eugene Polterin,
Chief,
Mineralogy Division.

NOV 26 1953
