

SILVERWARE IS KNOWN BY

THE HALL-MARK IT BEARS

# LEAD PIPE

*of high Quality is known  
by the marking it bears*

## This trade-mark identifies National Lead Pipe

THE same purpose that inspired the guilds of an earlier day to stamp silver and gold with hall-marks is responsible for the marking that appears on National Lead Pipe.

This branding makes it easy for you and every other pipe user to identify and buy lead pipe of high, dependable quality, of correct wall thickness, of proper weight per foot.

In planning your next quality installation, weigh carefully the following important advantages of quality lead pipe:

1. Its flexibility—the ease with which it can be stored, handled and installed.

2. Its adaptability to varying conditions.

3. Its high corrosion-resistance—particularly in soil lines.

In short, lead pipe meets every requirement of the high-quality, long-lasting installation. It is exactly the kind of product that will contribute to your reputation for high-class work. And don't forget—quality work commands quality prices.

**NATIONAL LEAD COMPANY**  
New York, Baltimore, Buffalo, Chicago, Cincinnati, Cleveland, St. Louis; National-Easton Lead Co., Boston, Georgia Lead Co., Atlanta; Gibson & Price Co., Cleveland; National Lead & Oil Co., of Penna., Pittsburgh; John T. Lewis & Bros. Co., Philadelphia.

The Dutch Boy trade-mark is a symbol of uniformity and dependability. Since every boy, every lot is numbered to denote its composition, you can be sure of getting the same kind every time you buy. There's a grade of Dutch Boy Solder for every soldering purpose.
