W.G. Krummrich Study
215 East Chicago Avenue, Suite 801
Chicago, Illinois 60611

Dear Denise:

Attached is the computer printout of former Krummrich employees who were identified as being deceased by the Health Care Finance Administration. I made a copy of the computer printout, since we are still using the information. I hope this does not break any confidentiality agreements. If it does, please let me know and I will destroy my copy.

I forgot to ask you today about the status of the computer tape containing vital status information from the Health Care Finance Administration that you are preparing for me. Once I receive the tape, I will be able to finish my updating of the study population containing Krummrich employees who ever worked in the chlorophenol, pentachlorophenol, and/or 2,4,5-T esterification units. Once this has been completed, I will be able to analyze the data to determine if the study population has any excess in mortality.

Sincerely,

Terry L. Leet
Epidemiologist

ATTACHMENT

P.S. I just realized that I have been misspelling your last name for the last year or so. Please accept my apology.
