Monsanto INDUSTRIAL CHEMICALS CO.

FROM (NAME & LOCATION) E. S. Tucker - T2F

DATE : December 6, 1972

SUBJECT :

REFERENCE : W. M. Mees Memo to W. B. Papageorge - 10/10/72

TO : W. B. Papageorge
B2NA

cc: J. D. Hinchen - R3B
R. E. Keller - T1B
W. M. Mees - T2F
→R. H. Munch - T1B
W. R. Richard - T3A
E. P. Wheeler/P. Wright - A3SA

Attached to this memo are all the PCB tissue residue data we have for Aroclor 1242, Aroclor 1254, and Aroclor 1260. These are the data used to prepare the PCB Task Force report and which Drs. Mehlman and Van Loon of the FDA want to review in detail when they visit St. Louis December 20th.

As requested, I have reserved a conference room, R-452, for our informal discussions starting at 9:00 A.M. The appropriate Applied Sciences people have been contacted (Hinchen, Mees and myself) and plan to attend.

E. S. Tucker
