Aim

- Open a constructive dialogue
- Convey difficulties encountered when trying to contribute to the process
- Understand the restriction process
- Understand the data needs

Format of the meeting

Before lunch: authorities provide their views on the restriction and answer questions from participants*

After lunch: participants provide practical issues with the restriction and answer questions from authorities and other participants

* questions to authorities posted through the chat and asked by moderator

Some ground rules for the participants, please refrain from

- Starting detailed scientific discussion on specific substances
- Challenging the scientific or personal integrity of the speakers
- Challenging the legal grounds of the restriction
