

Every Month—A Staff of Experts to Help You

- Solve On-the-Job Problems
- Improve Efficiency
- Increase Profits

Heating, Piping & Air Conditioning concentrates exclusively on serving specialists in industrial plant and "big building" heating, air conditioning, ventilating and piping.

HPAC's authors know their subjects . . . from experience. They are all actively engaged in some phase of design, installation, maintenance, research, or manufacture of heating, piping, air conditioning or ventilating equipment.

Moreover HPAC is staffed by men who are both editors and engineers. And these men work in constant touch with a unique board of consulting and contributing editors which is almost a "Who's Who" of the profession.

Topics of interest to you are thoroughly covered—the problem . . . the requirements . . . the alternate solutions . . . step-by-step planning and procedures—from design conception to installation, testing and use.

Subscription Price . . . USA . . . \$5.00 a year.

KEENEY PUBLISHING COMPANY

Subsidiary of Reinhold Publishing Corp.
6 North Michigan Ave. Chicago, Illinois 60602

American Artisan is the magazine that keeps its readers a step ahead on warm air heating, sheet metal contracting, air conditioning, ventilation and dust removal.

Every month it brings dealer-contractors new and essential information about selling, designing, installing and servicing systems and equipment. It points the way toward better methods, lower costs, and improvements in designing, fabricating, and installing procedures. Every issue is packed with sound and timely "how-to-do-it" information of direct dollars-and-cents value to your business.

Because American Artisan is headquarters for all sorts of industry information, you'll be kept informed about equipment developments, coming events, new literature, and, in fact, about everything that is likely to affect your business.

Subscription Price . . . USA . . . \$3.00 a year.

JOURNAL

OF PLUMBING, HEATING & AIR CONDITIONING

The BUSINESS/FINANCIAL Magazine of the Industry

The p & h contractor's reliable source for

- ALL information affecting
- ALL phases of his business in
- ALL his markets:

Plumbing . . . Hydronics . . . Water Systems
Residential . . . Commercial . . . Industrial
New construction . . . remodeling

P & H contractors' information needs are varied, they are also specific. They demand usable data on current business conditions as well as application and installation techniques, tools, equipment. The financial data

on which they base buying and operating judgments are found in every issue of The JOURNAL; much of it exclusively in The JOURNAL.

The HOT Book in the p & h industry because its the Most Useful to the industry

Years of intensive investigation of contractor interests and needs have brought today's JOURNAL's editorial image into sharp focus. Some of these continuing research programs are:

- **Market Studies** . . . revealing basic contractor attitudes toward various industry products, and also providing additional insight into reader-information needs.
- **Field Research.** Personal interviews with hundreds of readers, in the field. Conducted by the Mills Shepard research organization.
- **BI-Monthly Direct Mail Surveys** supplement our research program.

Mills Shepard Research

Continuing in 1965, the Mills Shepard firm will investigate and report reader interest in virtually all contents in The JOURNAL's January, April, May, August issues.

Thus JOURNAL readers again benefit from our constant search for ever better ways to serve them.
