Dr. R.A. Kehoe
University of Cincinnati
College of Medicine
Cincinnati, Ohio. U.S.A.

Dear Dr. Kehoe,

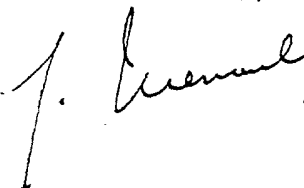

I am sending you, under separate cover, an issue (November 1936) of Revue Médicale Française, in which you will find an article by Dr. Desoille and Dr. Valentin, entitled "Quels sont les dangers qu'entraîne l'utilisation du Plomb Tétréthyle comme antidétonant?".

Dr. Desoille is an assistant of Professeur Duvoir at Institut d'Hygiène Industrielle et Médecine du Travail de la Faculté de Médecine de Paris.

This article seems unbiassed. However, the authors mention once more the conclusion of Dr. Flinn. I would be very glad to have your opinion on this article.

With best wishes for Christmas and the New Year for you and your family,

Yours sincerely,

KE 0010023
