What's New...

In safety, as in all other human activities, the question is repeatedly asked, "What's new?"

Many answers to that question are given every year by those who participate in the various sessions of the National Safety Congress. Many new methods, devices, and ideas which later became generally accepted first were presented at a Congress session.

Because of this fact, safety directors throughout the nation have always found the Transactions of the Congress a valuable tool in their accident prevention programs. Publication of the Transactions in small volumes—one for each Section or Division—permits wide distribution of pertinent portions of the Congress material to management and supervisory personnel at small cost.

The 34 volumes of the 1948 Congress Transactions are listed on the last page. Distribution of these volumes to key personnel is suggested as a valuable aid in the safety program.

In preparing these Transactions the proceedings of the Congress have been condensed and edited for reference purposes. Complete original manuscripts, with any charts or illustrations which were used, are available in National Safety Council files. Views expressed at the Congress or in this record are those of the Congress participants, and not necessarily those of the National Safety Council.

THE GLASS AND CERAMICS SECTION

This volume is a record of the sessions held at the 1948 National Safety Congress by the Glass and Ceramics Section. The conduct of these Congress sessions each year is only one of the many cooperative activities which the Glass and Ceramics Section carries on in behalf of its members, and for the benefit of accident prevention work in the glass and ceramics industry generally. The Section gives guidance in the preparation of a great variety of technical and educational material useful in the day-to-day safety programs of glass and ceramics plants. The activities of the Section are under the direction of its Executive Committee, the members of which are listed on page 19 of this volume.

Officers of the

GLASS AND CERAMICS SECTION

NATIONAL SAFETY COUNCIL 1949-50

Chairman—JOHN P. STEPHENSON, Director of Safety & Health, Ball Brothers Company, Muncie, Ind.

Vice-Chairman—JAMES L. MORRIS, Federal Glass Company, Columbus, Ohio.

Secretary—J. C. DITTMER, National Lead Company, Brooklyn, N. Y.

Program Committee—THOMAS R. DONOGHUE (Chairman), Pittsburgh Plate Glass Company, Pittsburgh, Pa.; HERMAN L. WEYRICK, Imperial Glass Company, Bellaire, Ohio; H. V. GARDNER, Owens-Illinois Glass Company, Toledo, Ohio; FRED G. ANDERSON, Corning Glass Works, Corning, N. Y.

Membership Committee—JAMES L. MORRIS (Chairman), Federal Glass Company, Columbus, Ohio; RUSSEL W. FRANK, Ferro Enamel Corporation, Cleveland, Ohio; DALE KUHLMAN, Libby Owens Ford Glass Company, Toledo, Ohio.

New Letter Committee—DICK KALE (Chairman), Owens-Corning-Fiberglas Corporation, Newark, Ohio; JAMES J. HOWELL, Safety Director, Libby Owens Ford Glass Company, Charleston, W. Va.; BERNARD P. CAMPBELL, Safety & Plant Protection Supervisor, Owens-Corning-Fiberglas Corporation, Newark, Ohio; JOHN B. FULLEN, Kopp Glass Incorporated, Swissvale, Pa.; WILLIAM K. STEVENS, A. P. Green Fire Brick Company, Mexico, Mo.

Engineering and Health Committee—FREDERICK S. KRIGER (Chairman), Corning Glass Works, Corning, N. Y.; HARRY A. JACKSON, Frigidaire Division, General Motors Corporation, Dayton, Ohio; W. G. HAZARD, Owens-Illinois Glass Company, Toledo, Ohio; KARL DUNN, Corning Glass Works, Corning, N. Y.; FRANK BURGOYNE, Norton Company, Worcester, Mass.

Poster Committee—ED LANGAS (Chairman), American Structural Products, Muncie, Ind.; WALTER WOOD, Kimble Glass Company, Vineland, N. J.; DICK KALE, Owens-Corning-Fiberglas Corporation, Newark, Ohio.

Staff Representative—FLOYD E. FRAZIER, National Safety Council, Chicago, Ill.
