IN RE CLAIM NO. OD 72927- [REDACTED]

June 17, 1952

Dr. R. A. Kehoe
University of Cincinnati
College of Medicine
Cincinnati 19, Ohio

Dear Doctor Kehoe:

Your letter filed in the above claim has been reviewed and we wish to thank you for the opinion and information given.

We did not wish to embarrass you, but we are confronted with seventeen claims, each very similar to the one submitted to you. We too have been unable to secure reliable information from the physician in charge. It seems that these men were exposed to lead for a few weeks before the first evidence of illness. Then, within a period of four weeks all of the seventeen men were hospitalized.

No reason is given for sending blood and urine samples to you in October.

Your letter has been helpful and we appreciate your assistance.

Yours truly,

R. M. Andre
