Dear Administrator Wheeler and Assistant Administrator Idsal,

Attached please find a petition for rulemaking from the Biogenic CO2 Coalition, requesting clarification from EPA that CO2 emissions from the use or processing of agricultural feedstocks are de minimis and not subject to PSD and Title V regulations. We appreciate your staff's willingness to speak with us on this issue, and hope to have a technical meeting with rule-writing staff to further address any questions or concerns you may have. Hope to talk to you soon.

John W. Bode
