**Subject:** RE: Gentle reminder on the article of EPA priorities in air and waste management

Has Daisy worked on this and are her edits incorporated into this draft?

Samantha,

Please find attached a third draft for the AWMA article.

Best,

Will

Samantha,

Please find attached two rough drafts of this article written by me and Max (thanks a ton, Max!). Please note that they have the same introduction — I did not attach the wrong files! Also, they both follow the same outline: 1) Back to Basics, 2) our mandate, 3) our actions, 4) our plans.

Please let us know how else we can help with this project. I will check my work phone this weekend in case you would like something done quickly.

Best,

Will

Will,

Can you give this a shot to start putting together an outline for this article? Use the report we recently did for the Administrator on regulatory reform and energy independence – Robin should have copies!

Hi Samantha,

Just a note to remind you that we are shooting for the end of June for your draft article.

Again, thank you so much for this important contribution to this issue.

Thanks, John. I haven't yet had a chance to start this, but could still try to get you something by the end of June if that is the time frame.

Hi Samantha,

I'm just checking in to see where things stand on an article. Again, thanks for your consideration

**Subject:** Request for an article of EPA priorities in air and waste management

I am writing on behalf of the Air and Waste Management Association (<https://www.awma.org>), whose members consist of environmental professionals from various industries, consultants, state, local, and federal agencies, and academics. We publish a monthly e-magazine called EM, which is targeted towards environmental managers from these groups. Our September issue of EM will consist of stakeholders perspectives on the most important air and waste related management priorities for the new Administration. As is our custom for special stakeholder issues like this, we would welcome a lead article from the Environmental Protection Agency. We are also reaching out to stakeholders representing various industries, states, environmentalists, and academics.

In soliciting an EPA article for one of our stakeholder comment issues of EM, we usually work through the air or waste EPA program offices. In this search, as the head of the policy office, you were recommended as the best contact for this request. Some specifics. We are looking for an article of 2000 to 3000 words in length that focuses on EPA's priorities, particularly for air and waste management. You are free to go beyond those areas, and it could be authored by you or anyone you believe would be an appropriate to represent EPA's perspectives. We are asking authors to provide a near final draft by the end of June, but can be somewhat flexible as the normal review process does not apply for policy related opinion pieces. You would have a chance to review the galley proofs of the article before it goes to publication.

I hope you will consider our request as an opportunity to communicate directly with our members. If you have any questions in making a decision, please let me know. I'm available either through this email or by phone at 919 619-0769.

Thank you for your consideration.
