

A Small Expense

There is great satisfaction in well painted woodwork. Brightly finished rooms reflect an air of self-respect on the part of the owner, and convey a "tone of quality" to the furnishings.

Besides, proper finishing preserves the wood and reduces liability to scratches, dents and scars. It is surprising what a capable painter—or you yourself—can accomplish with the right paint products, at small expense.

We have a paint, a varnish, a stain or an enamel, for every purpose.

They are made by Lowe Brothers, and even at a higher price, would be most economical

because of their quality. The "Little Blue Flag" on the can is your protection.

We would like to show you the newest colors and combinations—they are ready for your inspection. Perhaps our advice, or the Company's, will be of value to you. It is based on years of experience in making, selling and using paints. Come in and let us talk over your paint problems.

Lowe Brothers Paint Products

INCLUDE

"High Standard" Paint	Mellotone	Vernicol	Interior Enamel Colors
Most economical for house painting—covers more square feet to the gallon—lasts years longer than hand-mixed or cheap ready-mixed paints.	Latest success in flat finishes. For walls, ceilings, interior woodwork or metal. Washable, durable, fadeless, like oil paint.	A stain reproducing the effects of hard woods—not affected by soap or water. Does not show wheel marks. For old and new floors, woodwork and furniture.	For interior decoration—also household articles, furniture, willow ware, vases. Easily applied, lasting, washable.

**Floor Paint — Porch Floor Paint — Varnishes
