Both the Krumrich Plant and the Queensy Plant personnel have checked their manufacturing records to confirm the final manufacturing dates of PCB Pydrauls.

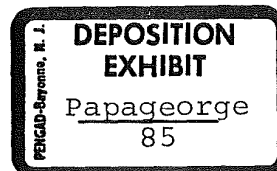

At the Queensy Plant the last PCB Pydraul manufactured was a batch of _____ on 6/2/71 for shipment to Europe. The last PCB Pydraul manufactured for domestic sales was Pydraul 312 on 3/24/71. Sales continued at relatively low levels through September.

At the WCK Plant we produced Pydraul A200 in May of 1971 and _____ in June of 1971, both for shipment to Europe.

If you need any further information please contact me.
