Dear EPA,

Please find attached a formal request on behalf of Trinity Sterile, Inc. for a two-year exemption from the Ethylene Oxide Emissions Standards for Sterilization Facilities, as outlined in Section 112(i)(4) of the Clean Air Act.

Facility Information:

- Facility Name: Trinity Sterile, Inc.
- Facility Address: 201 Kiley Drive, Salisbury, MD 21801

Emissions Standards or Limitations Subject to the Request:

- "National Emission Standards for Hazardous Air Pollutants: Ethylene Oxide Emissions Standards for Sterilization Facilities Residual Risk and Technology Review", 40 CFR Part 63, Subpart O (89 FR 24090; April 5, 2024) (Sterilizer Rule)

Length of Compliance Period Being Requested:

- 2-year exemption from April 6, 2026, to April 6, 2028.

The attached request includes justifications based on the unavailability of required technology and the national security interests of the United States, and an appropriate delegation of authority from Trinity to submit this request on their behalf. The attached letter does not include any proprietary information. However, such information may be available if deemed necessary by the EPA, which can be submitted in accordance with applicable rules and regulations to protect confidential business information.

Please do not hesitate to contact us if you require any additional information or steps to process this request.

Kind regards,

Bryan M. Allen

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. The second step is to define the objectives and goals of the project. This involves determining what you want to achieve and how you will measure success.

3. The third step is to develop a plan of action. This involves identifying the steps that need to be taken to achieve the objectives and goals.

4. The fourth step is to implement the plan. This involves putting the plan into action and monitoring progress.

5. The fifth step is to evaluate the results. This involves assessing the outcomes of the project and determining whether the objectives and goals have been achieved.
