

## **.22 N. R. A.**

### *Long Rifle Cartridges*

**N**EXT time you go target shooting or out for small game, take along some U. S. .22 N.R.A.'s. They're record-breakers—extremely accurate at all distances up to 200 yards. They're game-getters—unusually effective on all small game up to and including woodchucks. For target work, get the N.R.A. with solid bullet; for small game, the N.R.A. with hollow-point bullet.

## **RELIABLE**

*as an old huntin' dog*

## **THE CLIMAX**

**S**HOOT the time-tried Climax if you want a mighty fine all-around shell—a shell you can depend upon to do a hundred percent job in the field, at the traps, at Skeet. All gauges, including .410, with a wide choice of loads. And reliable as an old huntin' dog.

### Self-cleaning 410 SHELLS

**F**OR your .410 gun you can now get Climax Heavies, as well as regular Climax loads, with the self-cleaning type of non-corrosive primer. Thus are brought to these little shells the clean shooting qualities which won instant favor for U. S. Self-Cleaning Cartridges and which have given them an enviable reputation for keeping barrels as clean as a whistle.

### Coppered .22 RIM-FIRES

**N**EXT time you go to buy Shorts, Longs or Long Rifle Cartridges for that .22 of yours, ask to see the new U. S. .22's with copper-coated bullets. It's a sure thing you'll like their looks. And they're as fine in shooting qualities as in appearance. Primed, of course, with the self-cleaning type of non-corrosive priming mixture.
