

the Phillips Housing Project at Forty-seventh and Market Sts. This is one of the many of families seeking Federal housing has increased.

QUESTIONS ANSWERED BY OFFICIAL

Q—How much more to pay is a half of it. Should the house over on your side of the lot. Pay for it and the entire fence will belong to you.

Q—As an architect and architecturally growing, what is meant by the term "Masonry"?

A—Masonry is the square, round, and other shapes in a building. It is sometimes occupied by a wall to pay attention to the roof by sculpture.

REALLY YOUR HOME WITH MODERN PAINT COLORS HARMONY

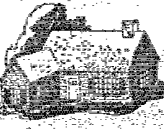

IT ALWAYS PAYS TO PAINT —and it pays to buy the best paint

When you consider that just a thin, skin-like film is all that stands between the constant attacks of the elements and the surface, you realize the only real bargain in paint is *long life and full protection* — experience proves it *pays to spend enough for paint*.

WOOD Needs the Best Paint Protection — Just as soon as the elements break through the paint film, the unprotected wood starts to decay. Good paint costs less than repairs. When you paint your home, style it, so bring out the beauty of its architectural design and hide defects.

PAINT OR STAIN PREVENT SHINGLES FROM ROTTING
Don't wait for shingles to become spongy with decay or so dry they curl or split and need re-shingling. Paint keeps out vermin and makes shingles last many years longer than they ordinarily would when unprotected. Besides, colorful roofs are important in styling a home.

STUCCO should be sealed against moisture — Stucco is porous. When seeping rains penetrate back of the stucco, rot takes place and the stucco often cracks, bulges and falls off. Good quality paint flows into the pores of the stucco and seals out the weather. It pays to paint stucco.

A BUILDING BRICK will absorb a Pound of Water
Dry houses are healthy houses. Paint your brick house and reduce the difference inside particularly during cold, damp weather. Paint color also gives you a chance to get a new and different styling effect outside.
