SUBJECT ASBESTOS REGULATIONS

PL 4.1.0

We are sending to each plant manager a copy of the Federal Bureau of Labor Emergency Standard for Exposure to Asbestos Dust which became effective of 12/7/71.

Please note the requirements:

1. For the use of respirators by those exposed to asbestos dust.
2. That all clean-up shall be performed by vacuum cleaners; no dry sweeping shall be performed.
3. For the disposal of waste and scrap (this would include bags).

We are looking into the methods for testing asbestos dust concentration and will advise you further.
