IN THE CIRCUIT COURT OF THE CITY OF ST. LOUIS

STATE OF MISSOURI

THEODORE CZARNIECKI,

Plaintiff,

-vs-

A.F. DRAXENFELD AND COMPANY,
a corporation,
45 Park Place
New York 7, New York
Serve: Secretary of State
Jefferson City, Missouri

No.

Div. No. 1

and

MONSANTO CHEMICAL COMPANY,
a corporation,
Serve: C.T. Corporation Service
314 N. Broadway
St. Louis 2, Missouri,

Defendants.

P E T I T I O N

C O U N T I

Plaintiff, for cause of action in Count I of this
Petition, states:

1. Defendant, B. F. DRAXENFELD AND COMPANY, hereinafter
called "Draxenfeld" is and was a foreign corporation duly
organized and existing under law at all times hereinafter
mentioned; as hereinafter more particularly alleged, DRAXENFELD
has committed a tort against the person of Plaintiff, in the
City of St. Louis, State of Missouri, and has thereby agreed
that the Secretary of State of Missouri shall be its agent

for the service of process, all as is provided in V.M.A. 1949, Section 351.530.

2. Defendant, MONSANTO CHEMICAL COMPANY (hereinafter called "Monsanto") is and at all times hereinafter mentioned was a corporation organized and existing under the laws of the State of Delaware, having a registered agent and office in the City of St. Louis, State of Missouri, and having its principal place of business in the State of Missouri.

3. Defendant DRACHTMELD is engaged in the business of manufacturing, preparing and distributing into the channels of trade paints and enamel, and among the various products so distributed by said Defendant is an enamel known as 24-018 enamel in 487 oil.

4. Defendant MONSANTO is engaged in the business of manufacturing and preparing chemicals, chemical products, oils and thinners and distributing said products into the channels of trade, and among the various products so manufactured and distributed by said Defendant is the product known as Arcolor 4465.

5. Defendant DRACHTMELD prepared the aforesaid product 24-018 enamel in 487 oil, by combining various other materials with Monsanto's product Arcolor 4465.

6. Both Defendants herein did know and intend that said products would be used by the consuming public and would be handled, dealt with, touched and the fumes thereof would be inhaled by the public, and both Defendants placed said

products in the channels of trade with such knowledge and intention.

7. Both Defendants herein did impliedly warrant and represent that the products 24-018 enamel in 407 oil, and Arcolor 4465 were fit and safe for such use by the public; but both Defendants and each Defendant knew that such products contained chlorinated biphenyls and chlorinated triphenyls, with a high amount of chlorination; said Defendants, and each of them, knew that said products would from time to time be heated or baked in ovens, and that use by the public of said products was likely to cause liver damage, skin eruptions, rashes, acne, cysts and dermatitis of various kinds.

8. Plaintiff, beginning in the year 1958 began to make use of said products in his employment with International Bent Glass Company, Inc. at St. Louis, Missouri, handling such products, touching the same, and inhaling the fumes thereof, all in reliance on the skill and judgment and aforesaid warranty of both Defendants, being wholly unaware of the toxic and dangerous qualities of such products.

9. After a period of such use of such products, the same, contrary to and in breach of the warranty of both Defendants, directly and proximately caused Plaintiff to become ill and diseased, in that Plaintiff suffered eruptions of Plaintiff's skin over and about Plaintiff's neck, shoulders, chest, back, buttocks, face, ears and eyelids, said areas have become covered with comedones, cysts, acne, infectious lesions.

papules and a condition known as chloracne; Plaintiff's eyelids and periorbital skin became erythematous, edematous and scaly; Plaintiff's liver was injured, damaged and diseased; these conditions are painful, irritating and embarrassing; all of said conditions are permanent.

10. Plaintiff has become obligated for large sums of money for medical attention for the aforesaid conditions and will become obligated for additional such sums in the future, in an amount not now ascertainable.

WHEREFORE, the premises considered, Plaintiff prays judgment against the Defendants and each of them, on this Count I of the petition for FORTY FIVE THOUSAND DOLLARS (\$45,000.00) and for Plaintiff's costs.

COUNT II

Plaintiff for cause of action in Count II of this Petition states:

1. Plaintiff restates and realleges each and every allegation in paragraphs 1, 2, 3, 4, 5, and 6 of Count I of this petition.
2. Both Defendants and each of them knew, or in the exercise of ordinary care should have known that said products, containing highly chlorinated biphenyls and triphenyls, are, and for many years have been, known to be of a toxic and dangerous nature in that they were reasonably likely to cause abnormal reactions, skin eruptions, rashes, liver damage, dermatitis and diseases, and Defendants and each of them were

under a duty to give an adequate warning of such dangers and risks to the public who used such products, but both Defendants and each of them negligently breached said duty by failing and omitting to give an adequate warning of such dangers and risks.

3. Plaintiff began to make use of such products in 1958 in his employment at St. Louis, Missouri with International Bent Glass Company, and as a direct and proximate result of the Defendants' negligence, Plaintiff was injured in those particulars alleged hereinabove in Count I, Paragraph 9.

4. Plaintiff restates and realleges each and every allegation in Count I, Paragraph 10.

WHEREFORE, the premises considered, Plaintiff prays judgment on this Count II of this Petition against the Defendants, and each of them, in the sum of FORTY FIVE THOUSAND DOLLARS (\$45,000.00), and for his costs.
