Dear Dr. Kehoe:

I have your letter of October 31, and would have liked very much to be able to contribute something worthwhile at the April meeting of A. I. H. A. It is with no little regret that I must inform you that we do not have anything to offer.

We are busy getting oriented for an extension of our industrial hygiene service and have no research work that can be reported upon by the time of this meeting.

The book is progressing and I am looking forward to soon receiving contributions from you and Dr. Heyroth.

Sincerely yours,

F. A. Patty
