VISTA

Mr. Ron Losasso
Chemtall Inc.
P. O. Box 250
Riceboro, GA 31323

Dear Ron:

Vista Chemical has analyzed LPA Solvent for benzene levels. LPA-210 is a distillation split from this product. All analyses of LPA have shown no detectable levels of benzene with a detection limit of <0.02 ppm. There are no known process conditions that could result in the addition or creation of benzene in the LPA-210, therefore, we believe the benzene levels in LPA to be representative of LPA-210.

Sincerely,

Thomas G. Grumbles, C.I.H.
Environmental Quality Manager
