Re: John L. Elliott

Dear Sirs:

Enclosed herewith is a photocopy of my most recent office note regarding Mr. Elliott. My interpretation of his chest x-ray is included in that note. I'm also enclosing the photocopy of the ventilatory function studies performed here, without the use of bronchodilators, as well as a photocopy of the computer printout which you may wish for comparison of your own studies.

Sincerely yours,

John W. Middleton, M.D.
