DOC#: BALD026

DOCUMENT DESCRIPTION: Inspection Report - Iron Dust Samples from Baldwin-Lima-Hamilton, Lima Division

November 27, 1970

Mr. Louis S. Beliasky
Department of Industrial Medicine
and Hygiene Engineering
Ehalid Clinic Foundation
18599 Lake Shore Blvd.
Cleveland, Ohio 44119

Dear Mr. Beliasky:

Enclosed please find two iron dust samples obtained at the Baldwin-Lima-Hamilton Corporation, Lima Division, for analysis for iron oxides reported in milligrams per cubic meter.

No. 1 sample - 15 min. was obtained from 150 liters, and

No. 2 sample - 15 min. from 155 liters.

They are identified by number on the outside of the plastic bag. No. 2 sample also has a blue ink identification on the filter. Please trim this out and correct result accordingly to avoid iron from the ink if significant.

Purchase order for $30.00 will follow.

Thank you.

Very truly yours,

MCH
Maurice E. Hatten, P.E.
Industrial Hygiene Engineer
