## Internal Correspondence

To: A-H Attorneys, Paralegals, and  
Litigation Assistants

Date: March 15, 1982

From: A.L. Christen *AC* 2-19

Copies: Fiber Purchase File/Chrono

Subject: SHIPMENTS OF RAW ASBESTOS FIBER TO J-M PIPE PLANTS

Material was recently turned over to me by Hank Blechar of the Pipe Division which relates to shipments of raw fiber (both J-M and purchased fiber) to the following J-M Pipe Plants: Denison, Green Cove Springs, Long Beach, Manville, Stockton, and Waukegan.

The earliest material dates back to 1975. The documents consist of the following:

Spread sheets on fiber inventory and usage for the years 1976 through 1979.

Computer reports of fiber shipments for the years 1976 through 1979.

Miscellaneous correspondence, invoices, bills of lading as set forth below:

Cassiar: 1978, 1979.

General Mining/GEFCO/Special Materials: 1975 through 1979.

Cape Blue Fiber: 1975 through 1979 (Cape Asbestos, Continental Products Corporate/Associated Mineral Corporate/North American Asbestos.

Amosite: 1976 through 1979.

Eternit Blue: 1979.

Flintkote: 1979.

Jeffrey Mines Schedules: 1978, 1979.

In addition I have obtained copies of the Pipe Division Manufacturing Blend Books which date back to 1950. For the most part, these specify grades of fiber to be used in the manufacturing of pipe, with only a casual reference to specific brands of fiber.

This material was turned over to me on a permanent basis,  
so that there would be no need for any legal department  
personnel to contact Mr. Blechar directly. Therefore,  
if any of you have any interest in seeing any of this  
material, please contact me.
