Samantha –

I am writing to follow up on the message I left with your assistant. I represent APS, the operator of the Four Corners Power Plan located on the Navajo Nation. We would like to discuss with you a federal implementation plan finalized in early January that affects the plant. We are preparing materials on the FIP; in short, APS is concerned with certain monitoring requirements that restrict plant operations without providing environmental benefits. APS believes there are more effective and less burdensome monitoring options available.

I would appreciate the chance to speak with you about the FIP, which has not yet been published in the *federal register*.

Best,
Megan Berge
