Dear Mr. Porter,

Asbestosis

I have delayed acknowledgment of your letter of 21st August, for which I now thank you, in the hope that I could send you at the same time a note of Dr. Knox's comments on the article to which you refer. We also received copies through other channels, and it is obviously arousing a good deal of interest.

I know that a considered commentary on the article is in course of preparation, but has been delayed owing to the incidence of holidays. I should like to send you a copy as soon as it is available, and in the meantime to defer any comment of my own.

Yours sincerely,

NAM/BT
