

- Thompson, J. H.
Compensation aspects of myocardial infarction in industrial medicine, *292
- Throat: See Larynx
- Tin
stannic oxide pneumoconiosis, 101 and 325
- Tissue
chromium: determination of small amounts in human blood, urine and, 327
radioactive substances: track demonstration in biological, in special reference to diagnosis of radium poisoning (in German), 115
- TNT: See Nitrotoluene
- Tobacco
smoking: factor in cancer of lungs, 413
- Tools: See Instruments
- Toxicology
building materials: hygienic significance of toxic substances deposited in, 410
toxicity, 424
- Tracewell, T. N.
On retention of air-borne particulates in human lungs, *359
- Transfusion: See Blood Transfusion
- Trasko, V. M.
Activities of state and local agencies in industrial health, *483
- Trichloroacetic Acid
trichloroethylene: evaluating exposures by urinalyses for [Ahlmark & Forssman], *386
- Trichloroethylene
estimation of: in blood, 212
- Triethylene Glycol: See Ethylene Glycol
- Trinitrotoluene: See Nitrotoluene
- Tuberculosis
BCG vaccination: in silicosis, 207
dust-silicosis, 419
occupational: among interns and nurses, 523
silicotuberculosis: blood changes in silicosis and, 418
of tendon sheaths: occupational disease, 105
- Turpentine
dermatitis due to oil of, 106
- Ulcers: See also under names of organs and regions, as Larynx
cutaneous: in workers exposed to chromium, 534
of nasal septum: perforated, in glass workers, 329
peptic: See Peptic Ulcers
- Undulant Fever: See Brucellosis
- Unions
viewpoint (toward plant industrial health program) [Read], *188
- Uranium
concentration of soluble compounds in air: suggested maximum allowable, 106
pile, 439
poisoning: introduction to nonclassified literature dealing with biochemical studies of experimental, 532
- Urine
chromium: determination of small amounts in human blood, tissue and, 327
coproporphyrin and lead in: action of BAL on: BAL and lead poisoning, 108
phenol in blood and: in experimental intoxication with trinitrotoluene, 108
silicic acid in: colorimetric microdetermination of small amounts, and its use in lung clinic, 331
sulfates, conjugated in: blood phenols and, in experimental benzene poisoning treated with vitamin C, 108
- Vanadium
pentoxide: acute poisoning, 419
pentoxide: health hazards in production and handling [Sjöberg], *631
- Vanadium—Continued
pneumonitis from, 211
poisoning: by newer metals, 535
- Van Ordstrand, H. S.
Choice of drugs and dosage, *583
- Vapors: See Air, impurities
- Vapotone®
toxicology of, 213
- Vegetable Oil
waste gases of: oxidation processes and their disposal, 436
- Ventilation
fume hood: controlling exhaust in atomic energy laboratories, 219
fume hoods: new, in laboratory, cut air conditioning load, 538
health of industrial worker and, 435
push-pull exhaust systems: design, 435
routine: surveying in South Wales anthracite mines, 219
- Veterinary Medicine
important aspect of industrial hygiene, 408
- Vibration
syndrome: especially in stone masons, 412
- Vision: See also Eyes
strenuous work: laboratory tests disclose significant results, 409
- Vital Statistics
occupational morbidity: studies, 337
work-life expectancy: measurement, 204
- Vitamins
C: experimental benzene poisoning treated with, blood phenols in blood and urinary conjugated sulfates, 108
- Vocal Cords: See Larynx
- Vorwald, A. J.
Experimental studies of asbestosis, *1
- Wastes
radioactive: disposal, 113
- Water
sewage works and: problem of safety and industrial hygiene in, 332
vapor and triethylene glycol vapor: comparison between influence on bacteria content of air in playroom in children's home under ordinary working conditions, 437
- Water Plant
fluorides in air of: feeding sodium fluoride, 433
- Welding
nitrogen (oxide): study of concentrations during arc [Silverman & Husain], *135
pulmonary syndrome: acute, of arc, 329
- Wetting Agents: See Detergents
- Whittenberger, J. L.
Pulmonary function in patients with pulmonary disease treated with ACTH, *603
- Women
outlook for: in social case work in medical setting, 205
- Work
conditions and industrial hygiene measures in production of and manufacture from chlorovinyl plastics, 324
days and nights: physiology and pathology of persons working alternatively, 324
placement: persons with diminished working capacity in otolaryngology, 324
placement: persons with diminished working capacity, due to rheumatic conditions, 324
work-life expectancy: measurement, 204
- Workman's Compensation and Insurance
laws: present condition and possible changes [Dawson], *350
state laws as of Sept. 1950, 409
