Dear Ken:

I have to assume from the failure of Dr. Speziale to respond to my letters, and from the lack of any response to a letter of mine to Mr. Bock, that the Monsanto Company has decided on a "no-cooperation" policy. Dr. Harold Wilcke (Ralston Purina) suggested that I call Dick Gordon. He was away when I called, and did not try to return my call, as far as I know.

I realize that these matters (Arochlors) are far from your responsibility, and that you are ~~out~~ of touch with them. It is still a curious and not very happy circumstance that a large powerful company like Monsanto will not discuss a problem of potential importance with a faculty member of the University of California.

With best personal regards,

Very truly yours,
