

September 15, "19-Safety-6"

W. L. Reynolds, Asst. Superintendent
Maint. Planning and Spares Control
United States Steel Corp., Lorain Wks.
1807 East 28th St.
Lorain, Ohio 44055

Dear Mr. Reynolds:

Your letter of August 25, 1966, addressed to our Mr. Bailey, has been referred to me for answer. Under separate cover we are sending to you the Specific Safety Requirements Codes you requested.

The Ohio Boiler Inspection Laws & Rules - 1954 and Ohio Rules for Construction of Unfired Pressure Vessels, Section VIII - 1955 have been replaced, and the 1965 Edition of the Boiler Laws and the Unfired Pressure Vessels Codes of the ASME, plus the ASME Code Cases in effect 1965, are now being used.

The jurisdiction of these codes has been changed from the Industrial Commission to the Ohio Board of Building Standards. We suggest you write to the Executive Secretary, Richard A. Yarrington, 220 Parsons Avenue, Columbus, Ohio 43215, concerning these codes.

Section IX, Standards for Welding is written also by the American Society of Mechanical Engineers.

The 1958 Edition of the Boiler Blow-Off Systems is still in effect but you may expect the Rules of the Industrial Commission to be repealed and this portion will be included with the new Ohio Boiler General Rules, public hearing of which was held on last September 8th, and these will become effective as soon as they can be printed which may be within the next month.

Very truly yours,

John F. Ridenour, P.E., Chief
Engineering and Hygiene
