Mr. Robert A. Kehoe, M.D.
University of Cincinnati
Department of Preventative Medicine
& Industrial Health
The Kettering Laboratory
Deacon Avenue
Cincinnati 19, Ohio

Dear Dr. Kehoe:

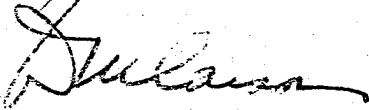

Your helpful letter dated October 2nd has been received and carefully read. The suggestions which you make strike me as being excellent and I plan to follow your recommendations as outlined. I have talked to Dr. Felton at the University of California Medical Center and have references from him to qualified M.D.'s in the Bay Area. I also plan to contact Mr. Ingrahm regarding our problem.

Your offer to assist us is welcome indeed, however, as you point out it is likely that we can serve our needs with local people and thus cause ourselves less of an expense burden.

We will see what progress we make and it is possible that your offer of pursuing the matter by correspondence will be accepted. Your helpful attitude and suggestions are warmly appreciated and I would like to have you accept our sincere thanks for your assistance.

Very truly yours,

MARWAIS STEEL COMPANY

W. M. Carson
