

Air Permitting for Sources with APFO

Intro - Bob Ritchey
Dispersion Modeling - Debbie Mulrooney
Permit Strategy - Chris Shoop

Thank for oppo to respond to your letter & discuss our concerns and our MRR
concepts directly w/ you. ^{W/ recent letters re R13 permits}
Believe we both want simplified, efficient, effective, enforceable permitting in R13 & T5.
Like you, we want to meet the Dec 1 deadline for issuance of T5 permits,
because if the Reg 18 driver.
And we both want a model that can be efficient & clear now & in the future.
We believe the MRR we have proposed can get us there in ensuring simpl w/ the
Pro. Sen Lev. R-APFO w/ having to combine R13 or separate the particulate in the permit. Welcome.

RLR 9/6/03
From call of letter back in Mar.
APFO still like to discuss clarify around some things as didn't understand
off to explain our perspective.
